BBQ safety

BBQs produce carbon monoxide which is a highly poisonous substance. Without an adequate supply of fresh air it can kill quickly with no warning. Stay safe and follow these simple tips for BBQ safety.

- ✓ Never take a smouldering or lit BBQ (charcoal or gas) into a tent, caravan or cabin. Even if you have finished cooking your BBQ will still give off fumes for some hours after use.
- ✓ Never use a BBQ inside to keep you warm.
- ✓ Never leave a lit BBQ unattended or while sleeping.
- ✓ Only use appliances in accordance with the operating instructions.
- ✓ Place your cooking area well away from your tent. Always ensure there is an adequate supply of fresh air where the BBQ is being used.
- ✓ Remember the six main signs and symptoms of carbon monoxide poisoning – headaches, dizziness, breathlessness, nausea, collapse and loss of consciousness. If concerned, seek medical advice.
